

PROSERIES™ ESCAPE LINE

Constructed of 100% Technora fiber for high strength, abrasion resistance and durability when exposed to heat and flame, our ProSeries Escape Line provides superior performance for this critical application. Extensively tested under static as well as dynamic conditions.

Rope is sold by the foot. Rope ends are included. No charge on custom cutting. See table below for maximum lengths.

ProSeries Escape Line Specifications

Certification — UL Classified to NFPA Standards.

Construction — Block creel, static kernmantle.

Fiber — Core is 100% Technora. Sheath is 100% Technora.

Sheath — 32-strand braided, with half the strands having a left (Z) twist and the other half having a right (S) twist for a balanced, torque-free rope with maximum abrasion resistance.

Rating — NFPA Fire Escape Use

Temperature — Char point 900° F (482° C).

Made in the U.S.A.
