Mil-Spec Needle Loom Nylon Web

After thorough investigation, which included reviewing web construction, manufacturer's tests, and performing our own field evaluations, it has been determined that the mil-spec needle loom web we offer is comparable in strength and abrasion resistance to the previous-generation shuttle loom (spiral weave) web.

Note: All one-inch web is sold by the foot with a maximum spool length of 300 ft (92 m). Military standards allow for up to three sections per spool.
