

CMC G11™

Introducing Next Generation G11

CMC's new and improved G11 represents our next generation of high strength, low volume 11 mm G-Rated rope. Constructed with a higher carrier count than its predecessor, our new G11 has greater sheath durability, more strength, and less elongation. Its Kernmantle polyester sheath and nylon core are optimized for enhanced safety, performance, and knotability.

CMC G11 is a complete rope with a well balanced composition. It provides a firm, cohesive feel while remaining supple, lightweight, and easy to handle. Built to perform and endure, CMC G11 is ideal for use in NFPA General Use 11 mm rope systems like the **DOUBLE CLUTCH TTRS**. CMC G11 runs smoothly and stands out. Available in 4 bright colors with a white X pattern tracer.

Rope is sold by the foot. Rope ends are included. No charge on custom cutting. See table below for maximum lengths.
