

## RIVER RESCUE Z-RIG KIT

---

---

This Rescue Kit includes the water-compatible equipment necessary for setting up a 3:1 z-rig mechanical advantage system for river rescue incidents. Compact ProTech Pulleys minimize bulk and weight, and an included Rappel 8 allows for controlled lowering.

Kits come with bags and packs for easy equipment organization, storage, transport, and deployment. For a detailed breakdown of kit components, download the Custom Product Sheet under the Resources Tab on this page. Previous CMC Kits are also available upon request. Please contact [Customer Support](#) for options.
